

How to turn a traffic cone into a barrier system with retractable tape?
Easy to do with our **RS-GUIDESYSTEMS**-cone head **GLL 900**:

Pict. 1 = GL 900/13-4.0

Pict. 2 = GLL 900/13-4.0 + LK 1055 traffic cone

Pict. 3 = GLL 900 cone head with **GLL 920** wall bracket (not included).
Wall bracket available either for fixation by screwing or with magnets.

Suitable for all commercially available traffic cones with a height of minimum 750 mm, like e. g. the **RS-GUIDESYSTEMS** LK 755 (=750 mm height) and LK 1055 (=1000 mm height).

Traffic cones and wall bracket not included.
