

Flexible in direction and maximum tape extension

Pict. 1: wall mount unit GLW 1000-J/17

Pict. 2: wall mount unit GLWM 1000-17

DESCRIPTION

Due to the movable installation within the fixation/bracket the body of the **RS-GUIDESYSTEMS** wall mount unit remains turnable at 360° and thus the tape exit is movable, which makes this unit extremely flexible in application.

The classic case is a material mix of plastic and metal which protects the retractable tape and fits into almost every surrounding. Due to the maximum tape extension of 10 m (!) even largest distances are easily, but most efficiently cordoned off.

Assembling: by screwing,

Also available as magnetic unit (=Art.-No. GLWM 1000)

Case

BELT COLOR

Standard tape colors:

red-white diag. (13) and black-yellow diag. (17)

Special colours and digital printing upon request.

SPECIFICATIONS

Case	Metal, black
