

Pict. 1: GLW 2000-17

Pict. 2: arrester device

Pict. 3: belt end

## DESCRIPTION

The max. tape extension of 20 m of the **RS-GUIDESYSTEMS** wall mount unit GLW 2000 grants efficient and striking queue management. The retractable tape is well protected by the sturdy case.

New, technical modification with arrester button!

The tape end can be fixed by either forming a loop or with the help of the **RS-GUIDESYSTEMS** wall receiver (separately available).

## CASE COLOUR

## BELT COLOUR
