

Pict. 1: GLWD 25-J

DESCRIPTION

Same construction as the **RS-GUIDESYSTEMS** wall mount unit GLW 25, but equipped with two individually usable cassettes. **This RS-GUIDESYSTEMS** wall mount unit is the ideal, cost- and space-saving barrier solution which enables application in almost every environment. The hard-wearing case in timeless and classic design is available in different types like powder coated metal (different standard colours available, special colours available upon request), stainless steel or chrome. The integrated **RS-GUIDESYSTEMS** cartridges GL 25 with their continuous extractable tapes are also available in various standard tape colours. Upon request and against surcharge they are also available with individually printed tapes, either one-sided or two-sided printed.

CASE COLOUR

Different standard colours and finishes available. Other colours upon request

BELT COLOUR

Different standard colours available. Special colours and digital printing upon request.
